

**CORE Kit**

***GoFoton***

Innovator. Expert. Problem Solver.

# CORE Kit

- Go!Foton's CORE Kit is a compact, versatile solution for deploying single fiber drops to the customer premise or for the restoration or extension of cables in the field.

- **Cable Entry/Exit Ports:** 1 In / 1 Out
- **Supported cable types:** 3 - 12mm round, 5.4 x 3.0mm & 8.4mm x 4.6mm flat
- **Max Splice Capacity:** 12F Single Fusion Splice
- **Dimensions:** 2.6" x 2.8" x 9.8"
- **Installation Options:** Below Grade, Buried, Aerial
- **Standards:** GR-771, IP68

# Features & Benefits

- **Modular Design:** Interchangeable grommets and splice/adaptor trays allow for versatility in cable types and applications.
- **GR-771/IP68 Certified:** Built to withstand harsh outside plant environments in below grade, direct buried, and aerial applications.
- **Compact Size:** Ideal and cost-effective solution for low fiber count applications.

# Ordering Information

- **STEP 1: Order base CORE Kit**
  - Supports up to 12 single fusion splices.
  - Grommets sold separately.
  - MOQ: 5 pcs.
- **STEP 2: Order desired accessories**
  - Grommet kits sold in 10 pc, 50pc, or 100 pc increments.
  - For pre-terminated or field terminated cable, the SC/APC adapter bulkhead can replace the 12F splice tray.
